

CHRISPINE MNDALA

Software, Systems & Operations Professional

Lilongwe, Malawi | peterschrispine@gmail.com | linkedin.com/in/chrispine-mndala-11a951206 | github.com/Chrispine-1210

PROFILE

Technology and operations professional focused on full-stack delivery, networked systems, data analysis, project coordination, and practical digital transformation. Brings cross-functional experience in commercial operations, compliance reporting, field data workflows, and building web-based systems for organisations in Malawi.

CORE CAPABILITIES

Software delivery: React, TypeScript, JavaScript, Node.js, Express, REST APIs, PostgreSQL, Drizzle ORM, Git/GitHub, responsive UI development.

Networks and systems: TCP/IP, LAN/WAN concepts, routing, DNS, device troubleshooting, server and cloud fundamentals, cybersecurity hygiene.

Data and operations: Excel analysis, dashboards, reporting, RBM/MEL concepts, KoboToolbox/ODK, stakeholder coordination, documentation, risk tracking.

SELECTED EXPERIENCE

Founder & Systems Lead | Aöthothe Technologies | 2026 - Present

Building governed enterprise-software and digital-transformation delivery foundations. Defines operational controls, product architecture, evidence standards, and market-facing delivery materials.

Technical Consultant | Freelance / Contract, Malawi | 2020 - Present

Delivers web platforms, dashboards, and digital workflows for local organisations. Work includes requirements discovery, interface delivery, data structures, operational documentation, and release support.

Marketing & Sales Compliance Officer | Farm Produce Marketing Association (FPMA), Lilongwe | 2025

Managed auction-floor compliance activity, collected and analysed sales information, supported farmer consultations, and prepared market-performance reports.

Operations & Marketing Manager | CHL Investments, Lilongwe | 2022 - Present

Supports operating processes, staff coordination, vendors, recruitment/training, digital marketing, and performance reporting for a family business.

Assistant Sales & Depot Manager | SBOF Ltd, Lilongwe | 2020 - 2021

Supported depot operations, stock controls, dispatch coordination, team supervision, and operational briefs.

SELECTED PROJECT EVIDENCE

Mtendere Education Consult platform: Full-stack public platform and administration work using React, TypeScript, Node.js, PostgreSQL, Drizzle ORM, and automated test coverage. Public case study limits claims to inspectable engineering evidence.

Aöthothe Enterprise OS: Governed internal commercial foundation covering catalogue, pricing, proposal, quotation, audit, and evidence controls. Recorded as a draft, non-deployed engineering release; no production or customer-outcome claim is made.
